PROFILE

I am a 3rd-year computer science student passionate about frontend development and creating visually appealing webpages with excellent user experiences. My strong communication skills and problem solving mindset make me an aspiring technopreneur.

PROJECTS

Godam Management

A complete warehouse management application made using React JS and Tailwind for frontend and Supabase for backend. [Live Demo](#)

Task Hub

An employee management app using Next.js, Tailwind CSS, and Supabase for efficient management and task assignments. [Source Code](#)

Portfolio

A personal portfolio website showcasing my skills, projects, and experiences, built with a focus on simplicity and functionality. [Live demo](#)
